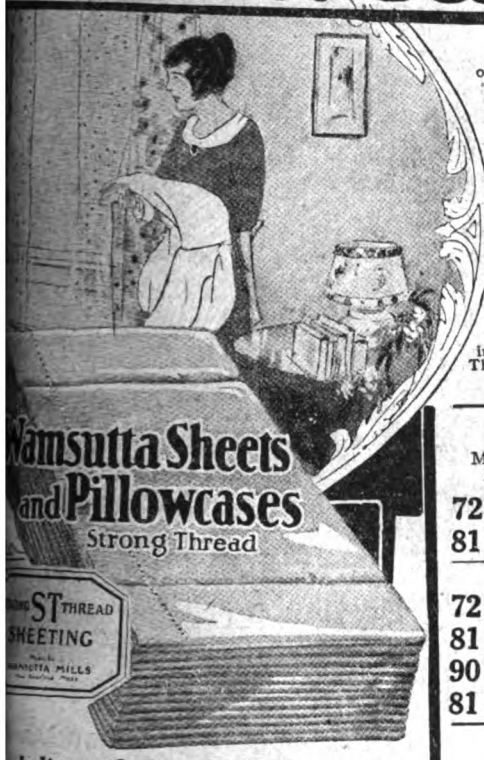
Pillowcases Page Quality

Exceptionally Good Grade

The Page Label is a guarantee of extra quality and fine finish. By buying sheets and pillowcases from this famous line you are assured longer wear and greater satisfaction. Our low prices are only made possible by a special arrangement with the manufacturer of these high class goods whereby we have the exclusive mail order distribution.



CAUTION.

Measure your mattress so that you will order the right width sheet. We recommend the following table for your guidance:

Width of Mattress	Most Suitable Width Sheet	Hang Over on Each Side
39 inches	63 inches	12 inches
42 inches	63 inches	10½ inches
48 inches	72 inches	12 inches
54 inches	81 inches	13½ inches
60 inches	81 inches	10½ inches

If an extra liberal width sheet is desired the 90-inch makes a very generous size for a bed either 54 or 60 inches wide. The lengths we quote are the mill lengths. The actual length after hemming is 4 inches less.

Comforter Materials
At Wholesale Price

All our Battings are delivered to you in individual cardboard cartons which are large enough to accommodate the batts without crushing. They are brought to you clean and fluffy. Only clean, wholesome cotton is used in their manufacture.

None of our Cotton Batting is bleached or chemically treated, but is made of clean, natural cream color cotton. It is only the cheaper grade of cotton that must be bleached, as bleaching helps to conceal the inferior quality of the batting.

No machine will make battings weighing exactly the same and we are unable to guarantee that all numbers weigh exactly the weight given, but we do guarantee that they will not vary more than a few ounces.

We recommend the use of cheesecloth in connection with our wool batting. If you will first cover your wool batt with cheesecloth, you will find it easy to handle when the occasion arises to re-cover it. This will also help prevent the wool fibers from working through the covering. Cheesecloth listed on page 449 suitable for this purpose.

Have Better Clothes—and More of Them!

It's Easy to be Well Dressed when you Make your own Clothes

Every woman can have more and better clothes for less money if she makes them herself. This is the secret of being well dressed. When you see a pretty suit or frock that appeals to you, a few yards of material, a pattern and your sewing machine will enable you to duplicate it for your own wardrobe. You don't have to be a designer or skilled dressmaker! Any woman can easily make the pretty things her heart desires if she has one of the efficient and easy running machines we offer on the following pages. The simple instructions we furnish with each machine will show you how easy it is to make all the dainty and attractive garments you have so often admired. Order your sewing machine today and resolve to be the best dressed woman in town.

Attachments

A high grade set of attachments furnished with every Franklin machine. Guaranteed by the Greist Co., the makers, to supply to most manufacturers of high grade sewing machines. Set consists of ruffler, shirring blade, binder, braider, short presser foot, binder and set of four hemmers, different widths.

The Genuine Franklin Head

Here is the wonderful Franklin head—the finest and most efficient vibrator type sewing machine we know how to build. The Franklin embodies every desirable and up to date feature, and is as near perfect as human skill and modern machinery can make it. When you buy a Franklin you have the satisfaction of knowing you have the best—a sewing machine that will give many years of faithful service—one that will measure up to the very best sewing machines on the market regardless of make, name or price.

The Franklin is a high arm, double thread, lockstitch type machine. The head is very simple in construction, and has the fewest possible points of friction. This insures a smooth, light running machine. It is a fast worker, and is self threading at every point except the eye of the needle.

Points of Franklin Superiority.

1. *Thumbscrew needle clamp—no screwdriver needed.*
2. *Automatic shuttle ejector—saves time and trouble.*
3. *Presser foot fits solidly against the bar. This eliminates bending and breaking needles.*
4. *Belt on outside—easy to raise head for oiling.*
5. *Automatic bobbin winder.*
6. *Independent positive cam take-up and disc tension—insures perfect stitch on any kind of material.*
7. *Automatic tension release—avoids bending needle or breaking thread when drawing work from under presser foot.*
8. *Extra strong and large feed—direct and positive. Handles materials, from lightest chiffon to heaviest woolens.*

The Sit-Right Feature.

Every woman will appreciate the wonderful Sit-Right construction of Franklin drop head models. (See picture above.)

Franklin drop head models are so designed that the needle is directly in front of the operator. No necessity of leaning to one side in order to guide the work when sewing. There is no cramping of arms or body. You can sew for hours on a Sit-Right Franklin without fatigue because you sit in a natural, upright position directly in front of your work. You'll never know real sewing comfort until you have tried the Sit-Right way. (See picture above.)

Accessories

The accessories furnished without extra charge consist of one quilter, five bobbins (and one in the machine), one hemmer screw, large nickel plated screwdriver, small nickel plated shuttle screwdriver, oil can filled with oil, foot hemmer, package of six needles, assorted sizes (and one in the machine).

The Guarantee that Stands the Acid Test

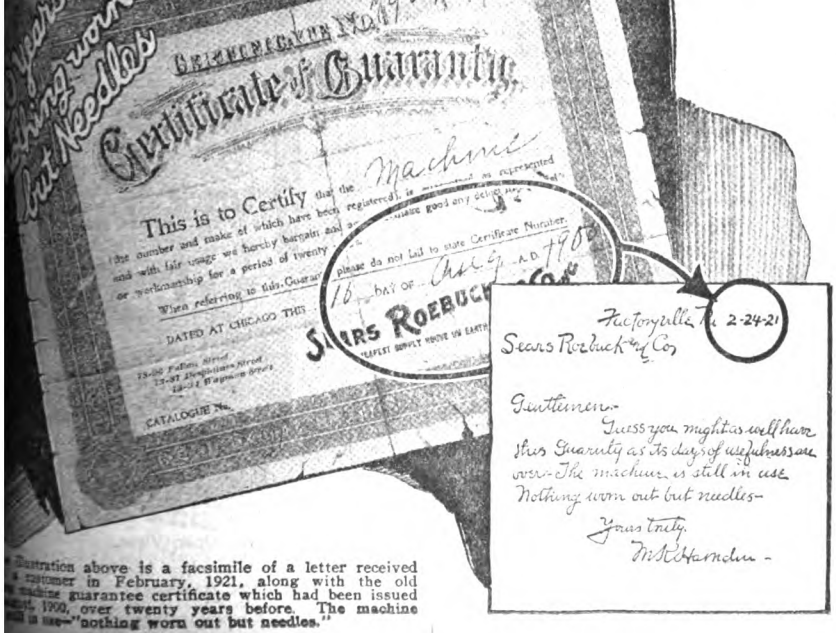

Illustration above is a facsimile of a letter received from a customer in February, 1921, along with the old sewing machine guarantee certificate which had been issued in March, 1900, over twenty years before. The machine is still in use—"nothing worn out but needles."

WHEN you buy a sewing machine from Sears, Roebuck and Co. you are protected by the most liberal guarantee ever made. Every machine we sell is positively guaranteed for twenty years. This means that if any defect in material or workmanship develops within this time we will replace the defective part without charge. We can make this guarantee with perfect assurance because we know our machines are honestly built to give service. None but the finest materials are used, and every part is so carefully fitted and tested that with ordinary care the machines should last much longer than twenty years and they do. The best proof we could offer of the durability and serviceability of our sewing machines are the hundreds of letters we have like the one reproduced at the left, which tell of machines our customers have used over twenty years, and which are still giving satisfactory day to day service.

HOW TO ORDER DIAMONDS.

These illustrations of unset diamonds are meant to show only the **relative** sizes. They show the diamonds slightly larger than the actual sizes. Diamonds are sold by weight and each stone sent out weighs what our guarantee calls for. When the stone weighs two or more points less than weight of diamond ordered, we deduct the amount and refund difference. When the stone weighs more, we take the loss.

HOW DIAMONDS ARE WEIGHED.

Our diamonds are sold under the metric system of weight, the weight adopted by the United States Government. We show various sizes and the old method of quoting the weight, together with the equivalent under the metric system. For example:

1/32 carat between 3/100 and 4/100.
1/16 carat or 6/100.
⅛ carat between 12/100 and 13/100.
¼ carat or 25/100.
⅜ carat between 37/100 and 38/100.
½ carat or 50/100.
⅝ carat between 63/100 and 63/100.
¾ carat or 75/100.
⅞ carat between 87/100 and 88/100.
1 carat or 100/100.

The majority of diamonds we sell are imported by us direct from the great markets of Amsterdam, Holland, and Antwerp, Belgium.

The prices we offer on diamond set jewelry give you an opportunity to save money. We send a diamond guarantee certificate with every diamond set article on pages 480 to 483. We have two certificates, A and B. CERTIFICATE A guarantees that should you for any reason return the diamond within sixty days following purchase, we will return the full purchase price without question; that at any time within a year from date of purchase you may return the diamond, and the purchase price, less 10 per cent, will be returned; that within a year after buying a diamond from us you may exchange it for another diamond or article of jewelry at a higher price by paying the difference in price, provided it is in the original setting and accompanied by our guarantee. CERTIFICATE B is sent where the mounting is fancy and the cost is an important part of the value of the entire item. This certificate guarantees that the article is exactly as represented in our catalog, genuine diamonds, splendidly cut, brilliant and of good quality, and if after wearing and comparing, having it valued, or for any reason whatsoever, the article sent is not entirely satisfactory, you are at liberty to return it within sixty days and have your entire purchase price refunded, together with transportation charges. Each item shows the certificates sent, A or B.

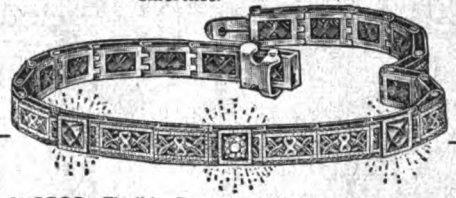
"Say it with a Diamond"

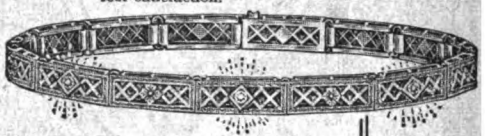
Three Grades of Diamonds

Examine carefully the stones bought from us, secure expert opinion from a competent judge, and you will find that the quality is all that we claim and the price unusually low. Diamonds are graded according to quality. We sell three grades only.



OUR FIRST QUALITY.
These are the choice stones, perfectly cut; of splendid color and brilliancy. The best selections from our imports.

OUR SECOND QUALITY.
Just a shade less fine than our first quality stones. No one but an expert could tell the difference.



OUR THIRD QUALITY.
Well cut, brilliant stones. While not as good as our second quality, they are free from cracks or conspicuous flaws and are guaranteed to give perfect satisfaction.

Senorita Pearls, solid and indestructible, a superior quality of wonderful luster and durability, made to imitate genuine pearls. Made from heavy solid beads in the sizes and grades illustrated, each pearl covered with expensive pearly substance that gives them beauty and charm, comparable only with the genuine Oriental pearl. The prices vary according to quality. The cost depends on the care with which each pearl is finished, the matching of colors and, most essential of all, the amount or thickness of pearly substance deposited on each bead. The thicker the deposit, the higher the luster or sheen, and the longer life. The manufacturer guarantees these pearls to us.

First—That the pearly substance will not peel off, even if boiled in water.

Second—They are indestructible, being solid all the way through of material that lends itself best for the construction of these pearls.

Our guarantee to you: Order one of these and if it does not measure up to your expectations send it back and we will return your money together with transportation charges.

So as to make our catalog clear and concise, we quote Senorita pearls in "A," "B," "C," "D" and "E" Luster, the "A" Luster standing for the highest quality. The prices on all grades are about one-half generally asked for artificial pearls of equal merit sold under high sounding advertised names. **Shipping weight on all necklaces on this page 3 ounces.**

Diamond-Like White Synthetic Sapphires

They wonderfully resemble diamonds—our White Synthetic Sapphires. They contain the same elements as the genuine sapphires; only experts can distinguish them from the mined stones. They are white, brilliant and very hard, and cut so as to resemble diamonds. We know of no artificial gem made by man that more resembles the wonderful, glittering, brilliant diamond. The rings illustrated come in 10-karat, 14-karat, 18-karat and 20-karat gold. Ladies' Rings furnished in sizes 5 to 10, unless otherwise stated. Men's Rings furnished in sizes 7 to 13. **In ordering be sure to mention catalog number and give size wanted.** See page 494 for Ring Measuring Instructions.

Red Synthetic Rubies

The only difference between the genuine natural ruby found in India, and our Red Synthetic Rubies, is that man created this gem from chemical constituents that Nature put in the natural gem. They are chemically the same, just as beautiful with their pigeon blood red color, just as hard and as brilliant, but with less flaws than the natural ruby. These gems are practically perfect. Ladies' Rings furnished in sizes 5 to 10, unless otherwise stated. Men's, 7 to 13. **Be sure to state size wanted.**

HOW TO MEASURE YOUR FINGER FOR A RING.

It is very important when you order a finger ring from us that you send the correct size, so to help you find the correct measurement so that we can send a ring which will exactly fit your finger, we give you the following information:

If you now own or can borrow a ring which fits the finger on which you propose to wear the new ring, place it on the chart above, and move it over these circles un[til] the ring just fits on top of circle. The number of that circle is the size ring you will require. If one circle should be slightly smaller and the next one slightly larger than the inside of ring which fits your finger, this would indicate that you want a size between the two. For example: If size 6 is just a little small and just a little large, you will want the size between these two, or No. 6½.

If you do not own and cannot borrow a ring which is the proper size, take a soft copper wire or a hairpin and twist it together to form a ring which will just pass over middle joint of the ring finger. You can then determine the size by moving this around on the chart as described at the left, or, if you wish, you may enclose this wire in your order, attaching it to the paper to prevent its being lost.

Alaska Silverlike Tableware

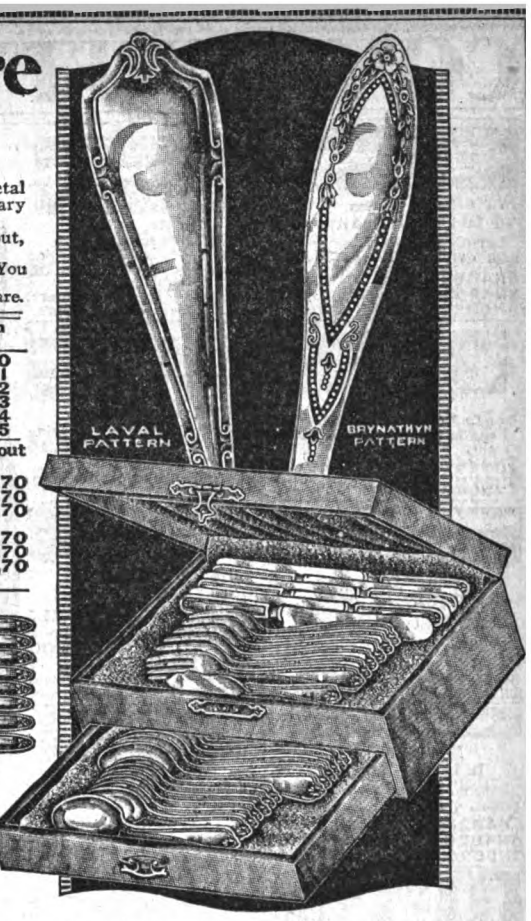
Guaranteed to Give a Lifetime Service

Alaska Silverlike Metal Tableware Looks Like Silver

In color and appearance it is difficult to distinguish from solid silver. Yet Alaska Silverlike Metal Tableware contains no silver. It is not plated. It is made of the same metal throughout and, with ordinary use and care, will last a lifetime.

Like sterling silver, Alaska Silverlike Metal Tableware takes a high polish. It is easy to clean, but, like solid silver or silver plate, it should not be left in vinegar or foods which contain acid or salt.

GUARANTEE—We guarantee Alaska Silverlike Metal Tableware for the term of your natural lifetime. You make no mistake when you buy Alaska Silverlike Metal Tableware.



ENGRAVING—On account of the hardness of the metal we do not engrave Alaska Silverlike Metal Tableware.

MAGNIFYING GLASSES.

Magnifiers of high power are necessarily made with lenses of small diameters and short focal lengths. This gives a narrow field of view and ample working distance. The purchaser must choose between a low power with wide field and ample working distance or a high power with narrow field and short working distance. The choice will usually be governed by the character of the work for which the glass will be used, but consideration should also be given to the fact that magnifiers with large lenses and of low power are easier to use and generally prove more satisfactory to those who do not use a glass often enough to become expert.

Single Lens Magnifiers.

Arch Supports, Foot Needs and Trusses

How to Wear an Arch Support.

The wearing of arch supports at first may cause you some discomfort. Do not attempt to wear them for more than an hour or so each day for the first few days, gradually increasing the period as the soreness leaves the foot which will occur. The feet gradually conform to the shape of the supports.

Portable Folding Bathtub. $7.69

Don't be satisfied with the old method of taking baths in a washtub when you can get a real bathtub for only $7.69. Especially adapted for camping or touring. This tub is strong and well made. The frame is braced with steel at the corners and the tub material is a heavy double coated rubber covered drill, very tough and durable, which may be washed on either side when dirty. The bottom of the tub rests on the floor, taking most of the weight off the frame, and there is no danger of it tipping over. When through with your bath (the tub dries very quickly) roll it up and stand it behind a door or in a closet; it takes very little room. At times a fire is not needed in the furnace and the bathroom is too cold for comfort. These are the days when your folding bathtub can be set up in front of the kitchen range and a bath taken in comfort. Size of the tub itself: Length, 5 ft.; width, 23½ in.; depth, 15½ in., inside measurements. Shpg. wt., carefully crated, 21½ lbs.

In caring for the hair, proper shampooing is always the most important thing.

It is the shampooing which brings out all the real life and luster, the natural wave and color, and makes your hair soft, fresh and luxuriant.

While your hair must have frequent and regular washing to keep it beautiful, it cannot stand the harsh effect of ordinary soaps. The free alkali in ordinary soaps soon dries the scalp, makes the hair brittle and ruins it.

That is why discriminating women, everywhere, now use Mulsified cocoanut oil shampoo. This clear, pure and entirely greaseless product cannot possibly injure, and it does not dry the scalp or make the hair brittle, no matter how often you use it.

You will be delighted to see how easy it is to keep your hair looking beautiful, when you use Mulsified cocoanut oil shampoo.

The quick, easy way.

Two or three teaspoonfuls of Mulsified in a cup or glass with a little warm water is sufficient to cleanse the hair and scalp thoroughly.

Simply pour the Mulsified evenly over the hair and rub it in. It makes an abundance of rich, creamy lather, which rinses out quickly and easily, removing every particle of dust, dirt, dandruff, and excess oil—the chief causes of all hair troubles.

After a Mulsified shampoo you will find the hair will dry quickly and evenly and have the appearance of being much thicker and heavier than it really is. It keeps the scalp soft and healthy, the hair fine and silky, bright, fresh-looking and fluffy, wavy and easy to manage.

People with clean white teeth are not afraid to smile.

There is no excuse for any one having unclean teeth, especially when with such little effort they can be kept in a clean and healthy condition and many tooth troubles thereby prevented. Well cleaned teeth are necessary for the beautiful woman, an asset to the successful man and essential to the health of the growing child. Beautiful teeth should be cleaned daily to keep the gums firm and healthy and prevent forming of film. This film, if allowed to form, readily absorbs any stain and causes the teeth to lose their whiteness and polish.

Artificial Xmas Trees

Preferred by Many to Regular Evergreens.

These trees are made of material which resembles the natural evergreen and does not shed. Easy to put up and take down, branches merely folding in and occupying little space. Artificial trees are getting more popular each year, very rapidly replacing the evergreen tree, and are cheaper in that they can be used season after season. We are for this reason offering larger size trees with more branches and ones that look very natural. Each tree in a nicely finished solid wood pot. Larger trees in sections for easy packing. Plenty of branches, twigs and candle holders on each tree in proportion to size.

Electric Light Outfits

Read About This New Idea.

How many times have you wished that you could add eight or sixteen lights to the outfit you already have? This outfit will do the work. Can be used with carbon outfit or mazda outfit, but each string of eight lights must be strictly one kind of lamp, as each string lights independently of the other. The extra socket is a wonder. Simply screw your old outfit into this socket and screw plug of new outfit into the light, or if you wish to get sixteen lights screw plug into the extra socket of the second set and then screw that plug into light. By doing this you can build up an eight-light outfit into as many lights as you wish. This extra socket can also be used for transformers to run electric train under tree or other electrical toys, or it is very handy for electric fan, heater, in fact any electrical appliance that takes up 120 volts. Just the thing for decorating porches, rooms, halls and lawns. If you do not wish to use extra socket there is a convenient cover that screws into it for safety purposes. Securely packed in box. For alternating current, 110 to 120 volts, no transformer or battery is necessary.

Houses—Weather Prophets—Flowers

Tell Tomorrow's Weather.

These wonderfully popular toy weather prophets forecast the weather eight to twenty-four hours in advance. Merely hang up outside on the window frame, side of the house or even put on mantel in the home and the cute little figures will do the rest. When the weather is going to be fine the woman comes out and the man stays in, but if a storm is brewing or rain threatens, the man comes out and the woman stays in. When the weather is changeable, both man and woman stand at the door. Of course, it is not to be expected this would be accurate like a good barometer, but it really does a fair job of forecasting, considering it is a curio as well as a weather prophet.

The One We Recommend.

Our boys' garments are made according to the following scale:

Garment for age size mentioned in this line	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
Fits boy of chest measure mentioned in this line, inches	22	23	24	24½	25	26	26½	27	27½	28	29	30½	32	33	34

Examples: If your boy's chest measures 30½ inches, order suit for **age size 14**, even though he may be younger or older than 14. Again, if your boy's chest measures 27 inches, order our suit for **age size 10**, even though he may be younger or older than 10.

Do not make allowances, because our garments are made full enough and if you order a larger size than the boy's measurements call for you are likely to get a garment that is too big.

Girls' or Children's Clothing, Including Dresses, Blouses, Middies, Coats, Raincoats, Sweaters and Underwear.

Figure 4.

GIVE AGE SIZE. To find **age size** take girl's chest measure, then consult scale of sizes below. Before ordering a girl's garment it is necessary to know her chest measure in order to know her actual size which we call her **age size**, as girls of the same age vary greatly in size. For example, a girl of only 10 years of age may be as large as the average girl of 12; or, on the other hand, she may be as small as the average girl of 9 years of age. The scale below shows the average chest measure of girls of each age compiled from the measurements of many thousands of girls of each age.

How to Measure Chest. Measure all around body at chest well up under arms, being sure that tape measure is over shoulder blades at back. Take this measure over dress or blouse. See line marked L on Figure 4. See table below to find what **age size** to order.

Our girls' clothing is made according to the following scale:

Garment for age size mentioned in this line	2	3	4	5	6	7	8	9	10	11
Fits girl of chest measure mentioned in this line, inches	20	21	22	23	24	25	26	27	28	29

Examples: If your girl's chest measures 22 inches, order **age size 4**, even tho may be older or younger than **age 4**. Again, if your girl's chest measures 30 **age size 12**, even though your girl may be older or younger than **12 years**.

Do not make allowances, because our garments are made full enough and if you size than the girl's measurements call for you are likely to get a garment that is t

How to Order and Other Information

...r under one name

If possible, have all the members of the family order under one name—the name of the head of the family. This name should always be written plainly and always the same way. For example: If the name of the head of the family is J. P. Thompson, sign the two initials and the name every time. Don't sign the order simply J. Thompson. If you have no middle name, please write the first name in full. For example: John Thompson, not merely J. Thompson. When we receive all orders from the same family under one and the same name, the keeping of our records is simpler and prevents mistakes and delays.

...der blanks

Order blanks are enclosed in this catalog. Additional blanks, if wanted, will be sent upon request. If at any time you have no order blanks, write your order on any paper.

...ite in any language

We can read it. We receive orders in all languages; all are handled with the same promptness.

...cessary information

Give name and number of article in catalog; also size and color where necessary. It is also advisable to check your order carefully to see that the necessary information is correctly stated before enclosing your order in the envelope.

...w to send money

We require cash with order. You are perfectly safe in sending cash with order, for our guarantee protects you. If you are not satisfied with the goods you receive we will exchange them for other goods you want, or return your money, together with all transportation charges you paid. You can send the money to us in any of the following ways:

1—Postoffice money order. *4—Cash by registered mail.*
2—Express money order. *5—Your personal check.*
3—Bank draft.

When goods are to be shipped by parcel post, be sure to include additional money to pay for postage.

If you live on a rural route you can give the letter containing your order and money to your carrier and he will buy a money order for you at the postoffice and enclose it in the envelope with your order and mail it to us.

...nge of address

If you change your postoffice address, street address, rural route, or box number, please let us know at once. In notifying us be sure to give your old address as well as your new one. This will enable us to send catalogs or letters to the correct address and thus avoid inconvenience to you.

Transportation charges

All transportation charges are to be paid by the customer.

When goods are to be shipped by parcel post be sure to include with your remittance to pay for goods additional money to pay for postage. Do not send stamps for this purpose.

When goods are to be shipped by freight or express and there is no freight or express agent at your shipping point, you must send additional money to prepay the freight or express charges. If there is an agent you can pay the charges when shipment reaches you. It is only necessary to prepay freight or express charges when there is no agent at your station. See pages 634 and 635 for express and freight rates.

Freight is the cheapest

Parcel post and express rates are low, but the cheapest way of shipping is by freight. The biggest savings are made by our customers who plan their purchases in advance. Instead of having small orders shipped to them by express or parcel post, they figure out all the supplies they will need for two or three months and order them all at once, shipped by freight. In this way they make a considerable additional saving on the larger order.

If you order goods sent by freight or express be sure to give your shipping point if it is different from your postoffice.

Factory shipments

In order to make our prices as low as we do we find it necessary to ship many of the heavy, bulky articles we sell direct from the various factories where they are made, or from a warehouse, thus saving our customers freight and cartage to our store, double handling and other expenses. The descriptions tell you when goods are shipped from factory or warehouse. By far the greater part of our merchandise is shipped direct from our store.

When you don't tell us how to ship

In this case we will consider that you have left it to our judgment and we will ship your goods the way it will cost you the least.

How to Return Goods by Parcel Post, Express or Freight

FREIGHT RATES

Table showing the freight rates per 100 pounds on goods shipped from Chicago to a number of cities in each state, these cities being used as a basis for figuring rates for other towns located in the same part of the state.

Please consult the following Table of Rates, considering it in connection with the classification of merchandise, and you will be able to determine easily, almost exactly, what the freight will amount to on any goods. If your station is not named in this table, the rate to your station will be the same or a few cents per 100 pounds more or less than the rate to the nearest city named, or you may ask your freight agent.

HOW TO SAVE ON FREIGHT CHARGES.

In having goods shipped by freight, it pays you to make up an order of 100 pounds or more, because railroad companies charge as much for a shipment weighing less than 100 pounds as they do for one weighing 100 pounds.

If there is no freight agent at your shipping point you must include sufficient money to prepay freight charges. If there is an agent you pay the freight charges when shipment reaches you. When you leave the method of shipment to us we always choose the cheapest.

CLASSIFICATION OF MERCHANDISE FOR FREIGHT SHIPMENTS.

You will notice in the Freight Table below there are four different rates quoted to each city, **first class, second class, third class and fourth class.** This is because the railroad companies base their rates on the kind of merchandise to be carried. In order, therefore, to give you an idea as to the rates which any kind of merchandise will take to your nearest city, we tell you here the kind of merchandise which takes the different classes of rates.

WITH BOOKS AND AUTHORS

THE SIX BEST SELLERS

Here are six of the most popular new fiction titles. Bound in cloth. Average 300 pages. Size, 5½x7¾ inches. Shipping weight, each, 1¼ pounds.

Wanderer of the Wasteland.
By Zane Grey. A thrilling tale of a western man, strong and enduring, who is driven by circumstances to become a wanderer in the desert wastes of the west. The story of a championship of the right, of his chivalrous love of a brave woman, of the fights and struggles by which he attained mastery over the lawless element, is as thrilling as a tale ever penned.
3N1106 .... $1.68

The Alaskan.
By James Oliver Curwood. A tale of bravery, of stark enduring courage and strength, written by a master's hand. No one knows the north country better than Curwood, no one knows more of the elemental strife that nature in her harsher moods imposes upon those who brave the Arctic. Full of romance and human interest, this book will hold you until the last page.
3N812..... $1.68

Never the Twain Shall Meet.
By Peter B. Kyne. To those who have read the stories of Kyne no further recommendation is necessary. This new novel is even more dramatic. It is a tale of California and the golden South Sea Isles—of a beautiful girl brought up far from civilization, who comes to our country and of her experiences and her return to Riva. Not ready until November 1.
3N1142.....$1.68

The Mine With the Iron Door.
By Harold Bell Wright. We feel that in this new tale, all the elements that made the older stories so enjoyable are included with an intensely interesting romatic plot, and finely drawn human characters. It is a story of the far west and the open country, with the romance intensely developed and its plot most ingenious. Its romance, setting and appeal makes it a glorious adventure romance of the Arizona mountains.
3N1144 .....$1.68

The White Flag.
By Gene Stratton Porter. For her greatest novel, the most popular author in the world turns to the old home of her girlhood memories. She tells of the people of a little Indiana town, and gives us another romance of the Limberlost countryside. Through a vivid portrayal of the good and bad of this life alike, Gene Stratton Porter raises problems vital to all of us. The White Flag is the emblem of Purity.
3N1130 .....$1.68

Flowing Gold.
By Rex Beach. A richness of humor and adventure, even greater than in this author's other great successes. A young soldier of fortune, without a dollar in his pocket, begins a career in the oilfields of Texas which are replete with action. He battles with predatory criminals and outlaws, brushes with human vultures who prey within the law, but finally overcomes all obstacles.
3N1063.....$1.68

CORPORAL CAMERON
of the Northwest Mounted Police.
A Tale of the Macleod Trail, by Ralph Connor.

Out of a misty Scotch glen came Allan Cameron, the young laird, to Canada and enlisted in the Northwest Mounted Police.

He could go without flinching into the midst of a bunch of Indians on the warpath and yank out their leader. Hunger and ruffians and 40 degrees below were less to him than the Honor of the Service, and he fought his way up to a corporal's chevrons and the dear love of a girl of the open. Cloth. 454 pages. BEN-HUR
By GEN. LEW WALLACE.
A Tale of the Christ

The sincerity and beauty of this mighty story, the magnificence and grandeur of the setting, the brilliant pageantry, the fascination of the descriptions of opulent splendor and voluptuousness of Roman society, in contrast with the intense religious enthusiasm and pure life of the early Christians, make BEN-HUR the most famous novel of the present day.

The clashing of rivalry and the deepest human passions, the perfect reproduction of brilliant Roman life and the tense, fierce atmosphere of the arena have kept their deep fascination.

An Ideal Gift. BEN-HUR is just the present to give to the young people, to the grownups, or to the old folks.

Each book is covered with an illustrated jacket showing a gorgeous reproduction in colors and gold of the Chariot Race from BEN-HUR.

Bound in high grade cloth with a beautiful ornamental design stamped in full gilt on the side and back. Each book has colored pictorial end sheets in the front and in the back.

Only the purchase of over a quarter of a million of these books, has made it possible for us to sell them so cheaply. We say it is a 25 cent book for 15 cents, but it is a book really worth more than that. These books will make a fine appearance on your table, or in your bookcase. **Then again** they are all great stories, every one of which you will enjoy.

You can start your own library for only 15 cents, and the materials used in making these books are as good as found in 75 per cent of all the $2.00 novels—a high grade of cloth of rich color, large size easily read black face type, printing plates that have just been made—never used before, fine white book paper and a rich all over gilt stamping on the cover. "My Passion for Him Was But a False Glamour"

The Love Story of a Movie Star.

The True Biography of a Famous Screen Actress.

Here is not only a story that makes a searching analysis of the heart of a woman in love, but as no other story ever has done, lays bare all sides of the life in the moving picture colonies, where the stars we know so well in the pictures are "off stage" with their loves, their hatreds, their inspired moments, and their unworthy temperamental outbursts. Aside from the absorbing charm of the story it is the authentic autobiography of one of the most famous of the moving picture actresses.

Who is the lovely heroine in real life? Which one of the stars who has thrilled you and entertained you many times at your favorite theatre is Nella? So lifelike is the picture she draws of herself, that every reader is convinced he recognizes her. Will Nella eventually reveal her identity to the world? Who knows?

You Can't Help Laughing

More Than a Thousand New Jokes and Stories

These are really funny jokes and stories, the kind that make you roar with glee. Not the old moss covered stuff from the time of Artemus Ward and Lew Dockstader, but fresh, bright and snappy anecdotes that have made a hit with all who heard them. Just the thing to help you when you need a good story to "adorn a tale," but even better as an antidote for the blues. Read it to the family. It will provide many evenings of merry laughter and enjoyment. You will swear that you have had your money's worth before you have read fifty pages. It's useful, too. All the jokes and stories are alphabetically arranged by subject so that you can find a tale to fit any occasion. Read the ones about love, lunacy, lying, manners, marriage, etc.

In ancient times kings and queens rewarded with magnificent gifts the jesters who could amuse them. Here for a nominal sum you can be sure of more laughs in an hour of reading than the average jester got in a week. Here is the book that you need. As a grand collection of genuine humor it is absolutely unmatched. It is a new contribution to the gaiety of nations. The jokes, one and all, are new, fresh and effervescent. Every story is AI, primed and fused, and ready for business. This is a mighty nice old world in which to live if you can laugh now and then. Are You at Ease Among Strangers?

People Who Are Well Poised on All Occasions Make Friends, Win Social Prestige and Enviable Business Success.

People of culture and good breeding can be recognized at once. They are calm, well poised, at ease. They have dignity and self assurance. Why? Because they are fortified with the knowledge of what to do, what to say and how to act on every occasion.

But there are other persons who are never at ease before people. They are awkward, self conscious, fearful all the time that they will do something that is not right. These people are afraid to accept invitations because they don't know what to wear. They are afraid to go to receptions, balls, informal gatherings, because they do not know how to act. They have a haunting fear of making social blunders. They don't know how to acknowledge formal invitations, they do not know the social customs that every man and woman should know. What is the result? Such people are ostracized. They offend, by their ignorance and social mistakes, people who would be friends to them and would help them in times of need.

Do You Stand in Your Own Light?

Which kind are you? **Are you the sort that people remark about:** "He is impossible—he needs the rough corners knocked off!" Don't be of this kind when it is so easy to be cultivated, poised, a real gentleman or a real lady. Don't ever be caught wanting on any occasion, for it is now so simple to be well bred and at ease among people. With the aid of **"Etiquette,"** the authoritative guide to correct manners, you need never be at a loss to know what to do on all occasions. This book will give you the key to what is proper to do, to write, to wear, to say, no matter where you are or what situation may arise. **"Etiquette"** gives you everything that the larger encyclopedias on etiquette give you, but in a delightful, concise yet comprehensive, one-volume edition. 384 pages. Cloth. Size, 5⅛x7½ inches. Shpg. wt., 1 lb.

ARE YOU RED BLOODED?

Sixteen Smashing Two-Fisted Books of Daring and Adventure.

Bang up, ripsnorting tales of the "bad old, glad old" West and adventure, by famous authors, published in book form for the first time. Novels by these well known writers sell for $2.00 each and yet our price for these stories—really small novels of about 128 pages—is only two for 29 cents, or **all eight of the stories for $1.00.** Remember, $1.00 is only **one-half** the price of one ordinary novel. Each book bound in heavy paper, with individual cover design in colors. Size, 5x7⅞ inches.

FIRST SERIES

Don Quickshot of the Rio Grande *Chalmers.*

"'Lookin' f'r Trouble' is my middle name," said Impulsive Pep, adventuring cowpuncher. And there on the border, among raiding Mexican bandits, train robbers, Texas rangers—not to mention a pair of blue eyes—he did not have far to look.

Spawn of the Desert *W. C. Tuttle.*

A Tale of Calico Town. "Where men lived raw, in the desert's maw and hell was nothing to shun; where they buried 'em neat, without preacher or sheet and writ on their tombstone, crude but sweet, 'This jasper was slow with his gun.'"

Loaded Dice *Edwin L. Sabin.*

A sure fire romance of Texas, of the early exciting days when lives depended on the quickness of the draw, and courage was needed to brave the perils the pioneers so fearlessly faced. A thrilling tale of men who were jugglers with death.

The Challenge of the North *J. B. Hendryx.*

"Bad" men and true men. Nerve that balks at nothing. Conquerors of the great Northwest. Quick thinking, quick acting pioneers, who braved cold and hunger and wild beasts. You won't put this book down until you know who came out ahead.

Sontag of Sundown *W. C. Tuttle.*

The story of the question of ownership of the TJ ranch—a question which was decided by bravery and leaden bullets. These cowpunchers will live long in your memory as men whose best friends were their nerve and their guns.

Arizona Argonauts *H. Bedford-Jones.*

Branded men—adventurers "driftin' wild." A mysterious Chinaman with a beautiful white daughter. Elemental strife in "a water hole at the back of creation." Gold—guns—and a get-away. Blue streak drama with a punch in every page.

The Lure of Piper's Glen *Theodore G. Roberts.*

Lured by the great timber country of the North, young Jim Todhunter breezed in with a great heart and two sledgehammer fists, where wallops count more than wallets. He cut a wide swath until destiny made him surrender. How? It's well worth while finding out.

Apache Valley *Arthur Chapman.*

A story of a cattle war in the Southwest, with all it means—Cattle rustlers, night holdups, a yellow sheriff, love in the enemy's camp. Laws that favored him who pulled his gun the quickest. Relentless hatred that only a marvelous girl could soothe.

SECOND SERIES

The Last Grubstake *Anthony M. Rud.*

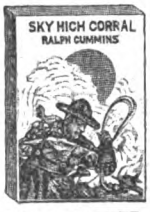
Gold there was in old Herb Corey's hills; the hills he'd combed and searched these many years. And yellow gold he found despite the wiles of claimjumpers. A tale of the days of sudden death and the irrevocable law of the grubstake.

The Devil's Payday *W. C. Tuttle.*

"A sky of brass, the sun a flame and the land no place to dwell; the only spot that God forgot, a hunk of earth, so doggone hot, that it still belongs to hell." Skip this one if you like a sheltered life.

The Second Mate *H. Bedford-Jones.*

Peril and mutiny on the China Seas. Scruppers running red on the good ship Sulu Queen. Two white women at the mercy of the leering cutthroats from the islands God forgot. Did the handful of white defenders come through? Some of them did.



The Sheriff of Pecos *H. Bedford-Jones.*

"With a smile on his lips, and two holsters at his hips, and a bright sheriff's star on his vest, with a horse that could run and a death dealing gun, he said: 'I'm the law of the West.'"

The Seven Pearls of Shandi *Magruder Maury.*

A tale of treasure which was afloat on the High Seas; the four reckless adventurers who were its guardians, the ruthless crook who was willing to commit murder for it, the beautiful lady who cared to own it, and the peril which followed in its wake.

Sky High Corral *Ralph Cummins.*

"No damn ranger is goin' to make count on my stock." Thus spoke Big Bill Hayden. But it was a man of the "Pine Tree" badge who drove Hayden's cattle the "drive of death" and brought them safely through the flaming forest.

The Night Rider *Elmer Brown Mason.*

Alarms by night in the country of the Mountaineers! Trails haunted by mysterious riders. Bitter feuds carried on from generation to generation. Uncanny secret service. Who wouldn't thrill at this tale of sudden death and danger?

The Canyon of the Green Death *F. R. Buckley.*

Strange, creepy, supernatural—the invisible devils in human form, whose haunt was the lost barranca. A terrible conflict in a desert place, where a young officer of the law was torn between the law of the land and the law of the desert. What would you have done? Or did Destiny leave no choice?

YOUR ONLY LOSS IS TWO EMPTY COVERS AND YOU SAVE $14.05

This famous work up to this time has been sold at four times the present price. We wished, however, to put Farm Knowledge into the hands of the largest number of farmers possible. To do this meant that it would be necessary to bring the price down so far that no one could say he could not afford it. This we have more than done, cutting the price from about $20.00 to less than $5.00.

$4.95 PAYS FOR COMPLETE SET

How was this remarkable reduction made possible? Not by cutting down the contents of Farm Knowledge or leaving out some of its valuable features, but (1) by selling it on a cash basis, thus saving the expense of collecting and handling installment accounts; (2) by using lighter and less expensive paper, which in every way is as practicable and gives as good a reading surface as the costlier paper; (3) by binding Farm Knowledge in two volumes instead of in four volumes, thus saving the cost of material and labor required in binding the two extra books; (4) by using a high grade regular book cloth of splendid wear resisting qualities for the binding instead of a fancy crash buckram, and printing the covers in one color instead of in three colors.

The World's Great Medical Book.

A friend in need is a friend indeed. Dr. Evans and his great book represent just such a friend. There is a time—an emergency—in every man's and woman's life when such a book as this is priceless. Such an emergency never gives you warning. Perhaps you or some member of your family will be suddenly stricken—of all times—in the dead of night; it may be hours before you can get a doctor. Perhaps you live miles from a railroad or town and no doctor is available. This great book may mean the difference between life and death. There are certain diseases that must be treated immediately, such as croup and tetanus. What would you do if some member of your family were suddenly taken sick with one of these diseases or one of many others where not a moment was to waste? Would you know what to do in the emergency to relieve the patient or perhaps save his life? Can you administer first aid? Can you stop the flow of blood from a wound till the doctor arrives?

Why will you go on day after day, month after month, trusting to luck that nothing will happen when something may happen at any moment? Are you fair to yourself and to your family? You would never forgive yourself if something happened and you were unable to take the necessary measures to comfort the patient or save his life. Don't go another day without this invaluable book which tells you just what to do in every emergency, in sickness or accident, before the doctor arrives. For the sake of yourself, your family, your loved ones, buy this book.

This book will tell you how to win back your dearest possession—your health—without which nothing counts in this world. Simple in language and rich in information, this book tells you how to escape sickness and how best to recover quickly from the illness that is curable. In it nearly every known disease is frankly and ably discussed.

The book consists of thousands of questions asked Dr. Evans by thousands of people seeking the road to health, together with the answers by the physician. So varied are the topics covered that without doubt the very question that you want to ask about yourself or some one in your family is here answered authoritatively in Dr. Evans' simple, direct manner.

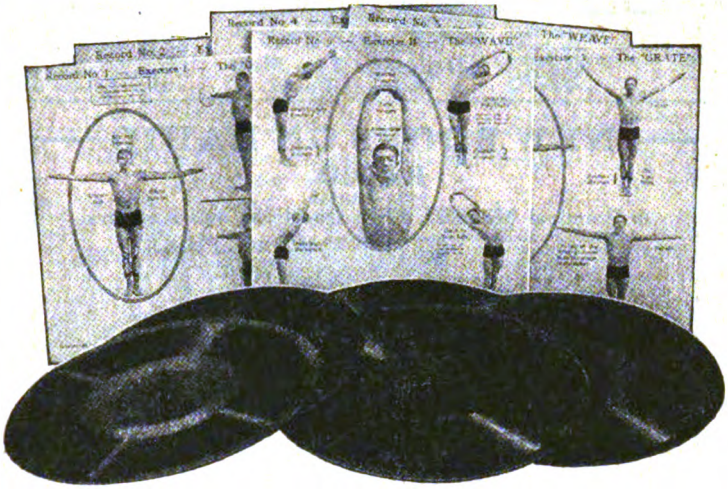
Walter Camp's New Way to Keep Fit Through Ten Minutes Daily Fun!

Walter Camp, Yale's celebrated football coach and one of the highest authorities in America on health and physical perfection, has been teaching men and women everywhere how to keep fit—"on edge"—full of bounding health and youthful vitality and how to **enjoy** doing it.

Mr. Camp says that civilized, indoor man is a "captive animal," just as much as a tiger in a cage. But the **tiger** instinctively knows how to take the kind of exercise he needs to keep fit. He stretches, turns and twists his **trunk** muscles—the very muscles that tend to become weak and flabby in indoor men and women. And so the tiger, even in close confinement, is never "run-down," never nervous—never suffers from dyspepsia, constipation, insomnia, overweight and other sedentary ills.

The "Daily Dozen," Mr. Camp's now famous little exercises, supply exactly the right movements to put those vitally important trunk muscles in the pink of condition and keep them there.



Not Ordinary Exercises.

These are not the usual tiresome gymnastics or calisthenics. Neither do they require hours of valuable time. They are simple stretching, bending and flexing motions scientifically designed to tone up and strengthen every organ of the body and to properly circulate the life giving blood in every part. If you are too stout, these movements will make you slender again. If you are thin and anemic, they will quickly build up your body to normal, ideal weight. *Only* ten minutes a day devoted to them and you—anyone—can keep yourself healthy, happy and full of "pep."

These easy movements are enjoyable, but the final touch—the added charm that has made them irresistibly fascinating—that makes it hard for you **not** to join in—is the jolly, catchy music. With Mr. Camp's special permission, all twelve of the "Daily Dozen" have been set to spirited music—on phonograph records that can be played on any disc machine.

In addition a chart is furnished for each exercise, showing by actual photographs the exact movements to make. A clear, brisk voice on the record gives the "commands," and then, when the lively music strikes up, you've just **got** to follow along. It's fun—a regular frolic—but these simple movements are all you need to keep your whole body in splendid condition. And they take only ten minutes a day!

At Much Less Than Original Price.

Walter Camp's improved system of health building now includes the entire "Daily Dozen" exercises, set to specially selected music, on five special 10-inch double disc phonograph records; a beautiful record album; twelve handsome charts printed in two colors, with over 60 actual photographs illustrating each movement, and a little book by Mr. Camp explaining the new principles of his famous system.

By a special arrangement we are able to offer it to you at a BIG REDUCTION. The regular price is $10.50. (Formerly $15.00.) Our price is only $8.75, and you get the same complete course. Send for it today and quickly gain new life and health and "pep."

Fat? Three internationally famous health experts show you how to easily lose a pound a day

Three internationally famous health experts have collaborated to produce perhaps the most remarkable weight reducing system yet devised. It is really more like play than anything else—purposely so, because these three great authorities know the wonderful health value of the play spirit. But it has marvelous results—10, 20, 50 pounds quickly taken off. At the same time it tones and strengthens the entire system.

You—anyone—can follow this wonderful new system in your own home, without outside advice or help. Thousands of men and women have already been immensely benefited by it. Not only have they lost their unsightly, burdensome fat, but they have also acquired new health, new energy, new vitality. Gone is that continual tired feeling, that sluggishness, that shortness of breath at the least exertion. Gone are constipation, headaches, insomnia, nervousness. And these folks have regained, perhaps to a greater degree than ever before, lithe, slender, well proportioned figures—graceful, supple, full of new life and vigor.

Science tells us fat forms only when the blood is too sluggish to carry it off. From their years of practical experience and wide study, these three famous health building experts—Messrs. Camp (American), Parnet (French), and Mueller (Danish) have been able to devise certain easy, simple, stretching and turning movements which circulate the blood at will in any and every part of the body, carrying off not only the congested fat, but also all accumulated poisons and impurities.

The simple movements are rhythmical and pleasant in themselves, but these wise specialists have made them irresistibly attractive by placing the entire course on phonograph records and accompanying the movements with lively, catchy music.

The new system is not intended to build athletes. It is designed to produce and does produce only perfectly normal, supremely healthy human beings, with all the charm and elegance of appearance and movement which only a slender, graceful, supple figure can give.

Reduces Any Part or Parts.

By this wonderful new system not only can you quickly reduce your entire physique, but directions are also given how to take off flesh just where you wish—on abdomen, bust, hips, thighs, buttocks, arms or legs—without affecting other parts that may now be normal.

You also learn how to tone and strengthen every important internal organ—heart, lungs, liver, and other abdominal organs, the spine and the pelvic region.

Save at Our Low Price.

This marvelous new Musical Weight Reducing System includes five special 10-inch double disc phonograph records, playable on any disc phonograph; a handsome record album, and a large, profusely illustrated booklet with 82 actual photographs, giving the simple instructions accompanying the ten easy lessons and many useful health hints.

The system sells regularly for $7.50. As usual, we are able to offer our customers a nice saving. From us you can get the same complete course for only $6.45.

It carries the child through the Bible in fifty-two interestingly told story lessons, each comprising three readings. At the end of each reading are ingenious questions, designed to clinch the child's memory of the incidents in the lesson. The New Testament in verse by its musical ring indelibly fastens in the mind of the child this ideal story. Today the Bible stands glorified—greater than at any time in its centuries of history. Now you will want the best of Bibles for your home. Have you a suitable Bible for all your family, from the young members to grandfather and grandmother, a Bible which all can use with comfort and joy and which fulfills the utmost service?

Here is a massive, dignified, wonderful Bible, expressive to the very highest point of the spirit of the Holy Book. It is superbly and supremely beautiful, heart reaching and inspiring and it will be the most loved by every member of the family of any edition of the Bible you ever owned. Here is the Bible that you will be glad to see on your parlor or living room table and which you will come to look upon as a valued family possession.

An Ideal Home *and* Old Folks Bible

This is an ideal Bible for the home—a family Bible in all the term implies. This Bible is most suitable for the old folks and for those who like large, clear print for most comfortable reading. It is printed in beautifully clear extra large pica type, which is the largest type ever used in a Bible of this size. The pages are printed in two columns with a short type line which is an additional aid to eyes that are not strong. The paper of a soft, pleasing color tone and dull finish is most restful to the sight. The fine heavy paper makes the pages easy to turn and an older person whose hands are a bit unsteady can pass through this Bible to and fro with the greatest comfort.

This Bible is again particularly fine and beautiful, for throughout its pages is a wealth of illustrations, the work of the greatest artists of all ages, that breathe pictorial life into the sacred writings.

This superb Bible is 7 inches wide by 9½ inches high and 2½ inches thick. It contains 1,935 pages and 664 illustrations. It is handsomely bound in the best quality black artificial leather with full divinity circuit (overlapping covers), semi-flexible style, beautifully morocco grained, so that it is almost impossible to tell it from genuine leather. The words "Holy Bible" are stamped on side and back in real gold leaf. It has burnished red edges, round corners, headband and silk ribbon marker. No money has been spared to make it the best Bible for the home ever published.

This wonderful home Bible combines a Family Reading Bible, and an illustrated treasury of Bible art and pictures. It also contains fifteen colored maps with index. It is, in short, an ideal home Bible with 60,000 references for every member of the family.

Sets New Price Standard *in* Bibles

With all these rare features that make this edition such a fine family Bible, our price is only about one-half that you usually pay for a Bible of this quality, size and completeness. When you see this handsome, massive, dignified Bible so full of character on your parlor table you will congratulate yourself on your choice both because it is so appropriate for all the family and also because it was such an excellent purchase from a money standpoint. We heartily recommend and urge you to purchase this Bible for your home.

Developing, Printing and Enlarging

Send Your Photo Finishing Orders to Photo Finishing Dept.

Send letter and money apart from package. Be sure to put name and address on package and in pencil on black or red paper of each roll of film.

Roll films to be developed should have your name and address **written on the roll,** then be packed in a pasteboard box, and the box securely wrapped with paper, tied with string and sent by parcel post.

Film negatives for prints or enlargements should be packed **flat** between two pieces of stiff pasteboard, wrapped with paper, tied with string and sent by parcel post.

Glass negatives sent for prints or enlargements should be packed face to face in the original box in which they came, the box of negatives completely surrounded with good packing material, such as excelsior, enclosed in a larger box to insure safe shipment, and sent by express.

State in your letter how many films or negatives you are sending, with full instructions as to the work you wish done.

Enclose sufficient money to pay the entire cost of developing and the entire cost of printing from **every** negative, figuring that all will be good. If you send glass negatives include, in addition, a sufficient amount to pay the postage. **If we find that part of the negatives are not good enough to print, we will send you prints from the good negatives only and return the balance of your money.**

Address package to: SEARS, ROEBUCK AND CO., Photo Finishing Dept., Chicago, Ill.

Prices for Enlargements

We pay postage or express charges on all enlargements.

We make enlargements from original negatives only. Do not send us prints of any kind for this purpose.

The average negative, provided it is reasonably sharp, gives fine results when enlarged about four times; for example, an 8x14 enlargement from a 2¼x3¼ negative. Most negatives will stand even greater enlargement if the pictures are to be hung on a wall where they will be viewed from a short distance. If a negative is not sharp enough to make a good enlargement of the size ordered, we will make an enlargement as large as it permits, charging only for the size made.

Sepia enlargements have a warm brown or chocolate tone, very pleasing for a great many subjects. Good sepias can be made only from good, strong negatives. If we find that the negative is not suited to an enlargement of this color, we send instead a black and white enlargement, charging the black and white price.

Unmounted enlargements are made with accurately trimmed white borders. Others are mounted on good grade and suitable mounts, with liberal margins. Both are shipped flat.

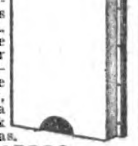
DEVELOPING AND PRINTING

All you have to do is take your pictures. If you do not care to develop the negatives afterward, we'll do it for a very small charge. We will also make your prints and mount them, and will make splendid enlargements for you. Page 676 tells you how to take all the work out of photography and leave only the fun.

FILM PACKS, ADAPTERS AND PLATES.

Kodak Film Packs.

Films in Your Plate Camera.



By the use of a film pack adapter you can instantly convert any plate camera, up to the 5x7 size, into a daylight loading film camera. Instead of two exposures with a plate holder, a film pack occupying no more space gives you twelve without reloading camera. Each pack holds twelve films. Any number of the films may be exposed and removed without exposing remainder.

Film Packs also fit film pack cameras with an adapter.

You Can Easily Make Your Own Enlargements With a Kewpie Enlarging Kamera.

With this simple piece of apparatus you can make first class enlargements from small negatives as easily as contact prints. Negative is placed in small end of box and Argo Enlarging Paper in the other. Exposure is made by pointing instrument toward sky for a short time, depending upon density of negative. Paper is developed in the same way as a contact print. Either plates or films may be used and they may be of size listed or smaller.

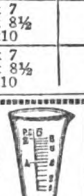
Argo Enlarging Paper.



This is just the paper to use with Kewpie Enlarging Kameras. It is a chloride paper of the same general class as Darko and other developing papers, but much faster. On account of its speed it must be handled in a deep orange or ruby light to prevent fogging.

Prints made on this paper look entirely different from the ordinary bromide enlargements. They possess a snap and brilliancy which is usually found only in contact prints.

Argo Enlarging Paper is made in one degree of contrast, suitable for normal negatives. **Be sure to state size.**

Keep Your Pictures Safely in Highest Quality Loose Leaf Photo Albums

If you value your prints, mount them in photo albums of KNOWN quality. Be sure that the leaves are made of paper which is absolutely free from chemicals that will cause it to discolor or stain the prints when paste is applied. **Each Album Contains 100 Pages (50 Black Flexible Leaves).**

We handle only the best grade photo albums. They are well bound and attractive in appearance. The leaves are of Egyptian black tint, harmonizing with almost any kind of print, and are made of strong, tough paper, the best grade used for album leaves. The leaves of these albums are removable, permitting the arrangement of the photographs to be changed at will; old leaves may be taken out, new ones put in or rearrangements made at any time. Both covers and leaves are flexible and the albums are bound in such a manner that they always lie perfectly flat whether open or shut.

We especially recommend our new spring back, full bound line of albums. These books are fitted with a patented screw and spring binding device which permits instant rearrangement of the leaves. Always open flat. They are bound all the way round, including the back, which feature gives these books a finished appearance.

Why You Should Buy a Beckwith

A piano or player piano is usually purchased once in a lifetime. Therefore, to the average home, the selection is a vital matter. Few people have accurate knowledge of piano construction and do not know what constitutes the difference between an instrument of really fine quality and one of cheaper construction. The safest way is to buy from a thoroughly reliable house. When you buy a Beckwith, made, sold and guaranteed by Sears, Roebuck and Co., you are absolutely sure to receive a strictly first grade instrument. And what is more, you will get it at the factory price with only our profit added.

Fine Tone Quality

The Style 20, illustrated, is one of our very fine players. Like all Beckwiths, it embodies the first essential of any piano—splendid tone quality. With it, there is no limit to what you can play. You can have appropriate music for any occasion or to suit any mood, changing instantly from the soft notes of a lullaby to the snappy tones of the latest dance hits.

The Beckwith player action, developed and made only by us, is durable, time tested and easy to play. It will prove satisfactory at all times, requiring the minimum of attention to keep it in good working order.

Anyone Can Play

No experience or skill is required to operate a Beckwith. Anyone, young or old, can, in a few minutes, learn to play well. You can use any standard music rolls, for the Beckwith will play them all and play them all equally well.

No Charge for Cabinet, Bench and Rolls.

See page 684 for description.

Specifications

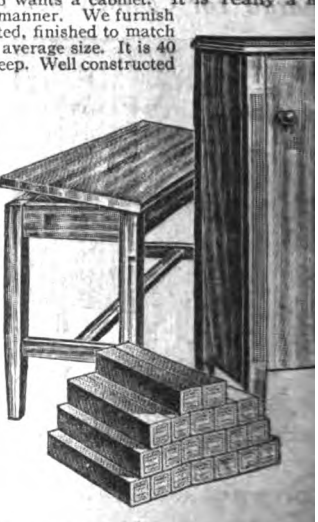
Our many years of experience in building high grade pianos and player pianos is reflected in this superfine instrument. It is made for discriminating people who demand and appreciate the very latest and best in design, finish and construction. With its many improvements and refinements, it is the finest and most artistic player piano we have ever offered. We do not hesitate to have our customers compare it with the highest priced player pianos of the day.

Singing Tone Quality.



The perfect piano is one with a vibrating, resonant tone usually ca

cause it takes the finest materials, combined with certain well define
of construction to make an instrument of this kind. When you strik

This music has been carefully selected and enables our customers to give the player piano a thorough trial to bring out the different musical effects. It is a selection of standard music which, in the past, has proven very satisfactory to our customers.

This 25-Year Guarantee on Every Beckwith

Here is a guarantee which really protects your piano purchase. It is more than a mere guarantee—it is our pledge of finest quality—a symbol of the confidence which we, as manufacturers, have in the durability of Beckwith Pianos. It affords more than protection for it is our assurance that you will be completely satisfied.

The Interior—The All Important Part of a Pi

A fine case alone does not necessarily indicate a fine piano, any more than a cover indicates a good book. The really expensive part of any piano is the inside hidden from the purchaser, and is often slighted in the manufacture of instrumen sell on a low price basis.

Beckwith Pianos are solidly and honestly constructed throughout and, with p should give a lifetime of satisfactory service. In this connection it might be of many to learn something of the strong, scientific Beckwith construction that assur purchaser the utmost in value, pleasure and satisfaction.

Sounding Board

The sounding board reproduces and amplifies the vibrations of the strings. Mountain spruce is generally considered to have the greatest amplifying powers, consequently we use in Beckwith Pianos only the very finest mountain grown spruce. This is crowned and ribbed in order to add to its vibrating qualities. While every piano has a sounding board of one kind or another, there are but few which are so resonant and responsive as that used in the Beckwith.

Metal Plate

Are you aware of the fact that the strings of a piano in proper tune exert a tension of about twenty tons? To resist this pull, or tension, we use a full length heavy metal plate running from the top to the bottom of the piano and weighing about 170 pounds. This is securely bolted in place.

The Back

Without a well constructed, substantial back, no piano can give lasting satisfaction. It is, without question, one of the most important feature as it supports the entire instrument, including the plate and sounding board. Through our many years of experience as piano manufacturers, we fected a back construction which stand several times the strain p and which is your assurance Beckwith Piano will stand up a service and satisfaction you have demand.

OUR CUSTOMERS SAY
"This Beckwith Concert Grand is the World's Greatest Piano Value"

Nineteen years ago, N. J. Markely, Warsaw, Ohio, bought a Beckwith. Here is what he wrote us recently:

> "We still have the Beckwith **we bought in 1904.** The piano is in fine shape, in workmanship, finish and tone. Would say that any one wishing to buy a piano will not make a mistake in buying a Beckwith."

Throughout the years, that honesty of purpose and constant adherence to a "square deal" policy makes new friends for Beckwith Pianos, as you can see from Mrs. Barker's letter written a few months ago from her home in Wichita Falls, Texas:

> "I received my Concert Grand Beckwith Piano from you in perfect order. I am proud to say it is simply grand. I have more compliments passed daily on its merit than I could ever tell you. I just feel like I have the very best money could buy, and at such a reasonably low price. I thank you for same."

As makers of Beckwith Pianos, we are not surprised that our customers consider it the "World's Greatest" piano value.

12N6123.....16c

Gear Lubricant.

This is a semi-viscous lubricant, consisting of a heavy mineral oil and a fine grade of petrolatum, designed especially for the worm and spur gears of phonograph motors.

All gears, and especially the worm gear of the governor, should be thoroughly coated with this lubricant every three or four months. Shpg. wt., 12 oz.
12N6124.....13c

Motor Bearing Oil.

This is a light bodied mineral oil, entirely free from animal or vegetable oils. It is designed for the lubrication of parts where the pressure is comparatively light and the speed relatively high, thus making it especially adapted to the close fitted bearings of phonograph motors.

The ends of all spindles and shafts, the sleeve which slides on the governor shaft and the felt friction disc on the governor should all be oiled occasionally with this Motor Bearing Oil. Shpg. wt., 6 oz.
12N6155..... 12c

Governor Springs.

Governor Spring (With Weight).

In replacing a broken governor spring it is necessary that the new spring be exactly like the old one. It must not only be of the same length and thickness, but the weight or ball attached must be of the same weight as the other. If this is not the case the motor will not run quietly and true. When only one or two springs of the set are replaced, there may be a difference between the new and the old. Therefore we list governor springs only in sets of three.

BROWN LABEL

THE new Brown Label SILVERTONE Re
are made of the best suitable materials for
purpose, in a laboratory equipped with the
latest recording devices and supervised by ex
who are pioneers in record making. They will
prise and please by the purity and faithful repr
tion of tones. They are of as lasting a quality
as free from surface noises as it is possible to
them where friction is the method of sound
reproduction. These two important points shou
considered when buying records.

Considerable experimenting has been given to
duce volume of tone suitable to the selection
reproduced. For example, a dance selection sho
sufficiently loud to overcome the shuffling o
while dancing; a violin or vocal selection shou
recorded with just enough volume not to dis
make screechy the higher tones. Special atten
given to band and orchestra records (which a
ficult to produce perfectly), bringing out every
ment clearly, yet not loud enough to muffle the
of the solo instruments.

SUPERTONE Player Rolls

FOR PLAYER PIANO

SUPERTONE (Our Own Trade Mark, Reg. U. S. Patent Office) ROLLS are mechanically perfect and musically correct. They embody all the good features which enter into the making of rolls of the highest quality.

They are very carefully arranged, both as to melody and accompaniment, and are so mathematically perfect in their construction that the rendition of any composition will have the effect of being performed by an artist of reputation instead of a mechanical apparatus.

Our Music Rolls are put up in neat and serviceable strawboard boxes covered in imitation of leather.

Word Rolls

Often when you play a song with a catchy melody in it, don't you have an inspiration to sing, and isn't it provoking that you are unable to do so because you do not know the words? Then, again, would it not be a pleasure at your parties and gatherings to be able to group around the player and all join in singing the best and the latest songs from the words plainly printed at the right hand side of the roll?

Supertone Player Word Rolls afford these enjoyments, and we feel sure that you will derive great pleasure from them.

It is just as natural to sing to these rolls as it is to play them on your player piano.

However, if you do not care to sing, these rolls are arranged so they may be played as piano solos, and many of them can be used for dancing.

NOTE—All Supertone Player Word Rolls are hand played reproductions by famous pianists. They come in two classes, priced according to the royalty paid the publishers, for the use of the words and music; for example, on standard and old time songs there is no royalty the copyright having expired. On the popular song rolls and songs from musical plays there is a royalty charge which accounts for the difference in price.

Most of these rolls are also arranged for dancing. Those marked with an asterisk (*) are for waltzes.
Those marked with a single dagger (†) are for one-steps. Those marked with a double dagger (‡) are for fox trots.

Order by Catalog number and roll number. Shipping weight, each, 12 ounces.
